

FAB-BRITE CONCENTRATE

Product Code: CLFBC

DESCRIPTION

A special low foaming product for professional use in soil extracting carpet cleaning machines. Over concentration or incorrect cleaning conditions, for a particular type of carpet, could cause damage.

DIRECTIONS

The normal dilution is 1 part in between 80 and 20 parts of water. Use in accordance with the machine manufacturer's instructions, taking proper precautions to avoid shrinkage or other damage. For periodic professional carpet cleaning only.

Not suitable for frequent routine treatment. Spot test on a small hidden area before starting the cleaning process. Used properly, this cleaner releases soil, brightens colours and restores the natural resilience of the pile.
