

FLOORSHINE

PRODUCT CODE: JAFS

Product Description

A special product for the easy cleaning and polishing of washable hard floor surfaces.

Floorshine may be used to maintain floors which have been treated with metallised emulsion polishes, or be used on its own as a floor cleaner and polish.

Suitable for use in spray burnishing or damp mopping techniques.

Gives some shine, even when simply mopped on and can be buffed to a high shine with excellent anti-slip and anti-scuff properties. Contains an anti-static agent.

Very effective in keeping dust down on concrete floors when it can simply be applied by mopping.

Directions

SPRAY BURNISHING: Use 1 part with about 20 parts of water.

MOPPING: Use 1 part with about 50 parts of water.
