

FLEETWASH & WAX

PRODUCT CODE: PRFWW

A sophisticated High Quality Traffic Film Remover developed to remove traffic film from commercial vehicles and to also leave behind a wax like finish. The cleaner may be used through both pressure washers and commercial brush wash machines. It is very effective for removing traffic film from bodywork and wheels, degreasing engines and chassis and components.

Normal working strength is between 1-2% through a pressure washer or 1/2-1% through a commercial brush wash machine. In order to avoid damage to alkaline sensitive surfaces, working conditions should be adjusted to be as mild as possible (lowest temperature - lowest concentration) for the work in hand. Metallised plastic and aluminium trim are alkali sensitive. This product is to be used on such items strictly at the users risk.

Directions

Adjust the detergent feed until the detergent flow is just sufficient to give the required cleaning action. It is most important to avoid excessive feed rates with this detergent since excessive concentrations can damage paintwork and trim. Rinse at once with plenty of clean water. On no account must the cleaning solution be allowed to dry on or staining may result.

Always run plain water through the machine immediately after use.

Irritant sign to go next to product name.

Health & Safety

IRRITANT

R36/38 Irritating to eyes and skin.

S37/39 Wear suitable gloves and eye/face protection.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Store in a cool, dry place away from frost and away from acids and strong oxidising agents.

S2 Keep out of reach of children.

CATEGORY

Pressure washer additive.

PRODUCT SAFETY DATA SHEET

(1) IDENTIFICATION

Product name: FLEETWASH & WAX
Product Code: PRFWW
Supplier: Starbrite Chemicals, X L House,
Rutherford Way, Crawley, West Sx RH10 2PB
Tele: 01293 434250
Fax: 01293 434252

COMPOSITION/INFORMATION ON INGREDIENTS

Material
Sodium hydroxide

Cas No
1310-73-7

% w/w
less than 2%

Classification
C

Risk
R35

Risk phrases in this section apply to raw materials, not necessarily to the finished product. (see section 15)

(3) HAZARDS IDENTIFICATION

If swallowed, may cause burning of mouth, throat and alimentary canal.

Inhalation is unlikely to present a problem with concentrate.

When used through a pressure washer, spray mist may cause irritation of nose and throat.

Contact with skin may cause irritation.

Contact with eyes will cause irritation and redness.

(4) FIRST AID MEASURES

Skin Contact: Wash immediately with soap and water, remove contaminated clothing.

Eye contact: Rinse immediately with plenty of clean water, Continue rinsing for 15 minutes. Obtain medical advice.

Ingestion: Rinse mouth and lips with clean water. Give milk or water to drink.

Obtain urgent medical advice. Do not attempt to induce vomiting.

Inhalation: Move casualty to fresh air. Loosen tight clothing and ensure he is breathing freely. If symptoms persist seek medical advice.

(5) FIRE FIGHTING MEASURES.

Product is not flammable. Keep containers cool with water spray.

(6) ACCIDENTAL RELEASE MEASURES

Wear impervious gloves and eye protection. Hose to foul sewer with copious amounts of water, ensuring dilution is sufficient to comply with local authority consent. Prevent from entering storm drains and open water courses. Inform local authority in event of major spillage.

(7) HANDLING & STORAGE

Store in containers provided. If repackaging, ensure the new container is suitable for use with this product.

Store at temperatures between 0 deg C and 35 deg C.

Keep out of reach of children. Store well away from foodstuffs.

(8) EXPOSURE CONTROLS/PERSONAL PROTECTION

Suitable protective clothing, including impervious gloves and safety glasses should be worn when handling the concentrated product, or using the diluted product through a pressure washer.

Avoid breathing spray mist.

Ensure adequate ventilation.

(9) PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Clear, yellow, mobile liquid

Odour: Strong detergent

pH: 13.3 (approx)

pH (2% dilution) 11.0 (approx)

S.G.: 1.06 (approx)

Boiling point 100 deg C

Water Solubility: Completely soluble

(10) STABILITY & REACTIVITY

Do not mix with other chemicals.

(11) TOXICOLOGICAL INFORMATION

Prolonged or repeated skin contact, may lead to significant irritation.

(12) ECOLOGICAL INFORMATION.

Product is biodegradable.

Do not release into surface waters.

Effluent should be discharged to foul sewer only, and in accordance with local authority consent to discharge trade waste.

(13) DISPOSAL CONSIDERATIONS

Do not empty into drains.

Dispose of waste product in accordance with national and local regulations.

(14) TRANSPORT INFORMATION

Not classified as hazardous for transport purposes.

(15) REGULATORY INFORMATION

Xi IRRITANT (St Andrew's cross symbol)

R36/38 Irritating to eyes and skin.

S2 Keep out of reach of children.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S37/39 Wear suitable gloves and eye/face protection.

(16) OTHER INFORMATION

Information in accordance with Chemicals (Hazard Information and Packaging for Supply Regulations 1995 (CHIP2)).

Other regulations which may apply during storage, transport or use of this product include:

Health and Safety at Work Act - 1974 and subsequent amendments.

Carriage of Dangerous Goods by Road and Rail (Classification, Packaging and Labelling) Regulations 1994.

Environmental Protection (Duty of Care) Regulations 1991.

The above information is provided for Health and Safety purposes only and does not imply any chemical specification. The user should satisfy himself that the product is entirely suitable and safe for his own particular purposes.
